## About Students

We are distinctive among higher education institutions in the UK, in that we teach primarily at a distance and have no academic prerequisites for admission to undergraduate modules. As long as applicants are aged (usually) 16 or over and live in the UK or another EU country (some modules are available in many other parts of the world), the only factors which affect the offer of an undergraduate place are date of application and the number of places available. Over a third of our UK undergraduates have entry qualifications lower than those normally required by other UK universities. We have around 115,000 UK undergraduates; 8,000 postgraduates and 7,000 non-UK-based students studying OU UG or PG modules. More than 25,000 students of our UG and PG students have declared disabilities. We also have around 300 OU students studying Overseas versions of OU modules.

## Notes on the data

The 2019 reporting period is for the academic year 2017/18. The data in this report covers the years 2013/14, 2014/15, 2015/16, 2016/17 and 2017/18.

The scale of many of the bar charts has been adjusted to show differences more clearly.

## Participation

Data for undergraduate, new undergraduate and postgraduate UK students, all non-UK students, Overseas students<sup>1</sup>, Research students and ITE students is reported.

Headcount data for 'All students' means UG + PG, where each student is counted only once, even if they study at both UG and PG level.

Currency is headcount registered at one third of the way through the module for all UG and PG OU modules.

The proportions given for student Ethnic groups are of the total number whose ethnicity are known.

## Module completion

Data for undergraduate and postgraduate UK students is reported in this document. Data for non-UK and Overseas students are shown separately in Excel spreadsheets. The currency for completions is student funded Full Time Equivalent (FTE120180)<sup>2</sup>.

## Academic attainment

Data for undergraduate UK students is reported.

The currency for attainment is student funded Full Time Equivalent (FTE120180).

Attainment for students on level 1 modules is measured by the number/proportion of completers that passed their module.

Attainment for students on level 2 and 3 modules is measured by the number/proportion of those that passed who achieved a good pass. A good pass is defined as distinction and grade 2 pass or distinction and merit pass.

Attainment for students on PG modules is measured by the number/proportion of students of those that passed who achieve a good pass.

A good pass is defined as an overall module score of 70% or above.

## Withdrawal

Withdrawal from the programme can occur at any stage after registration and it may be due to academic or personal reasons. In the report withdrawals refer to ITE or research students. In both cases, they represent failure to achieve the intended outcome – QTS certificate for ITE students, or a research degree for research students.

Additional student data by OU region/nation and by OU faculty is available to staff to download in Excel files.

Additional student data for non-UK students and Overseas students is also available in Excel files.

<sup>1</sup> Robust data is only available at the moment for Overseas students by gender and age

<sup>2</sup> 1 FTE120180 = 120 credits for undergraduate modules, 180 credits for most postgraduate modules (i.e. those defined as 'Long').
